

**REMARKS**

Applicants have requested that the sequence listing on pages 87-101 be deleted and replaced with the sequence listing filed concurrently herewith, as there is an obvious error with SEQ ID NO: 4. The sequence originally filed as SEQ ID NO: 4 does not correspond with the sequence matching accession number NP-032681.1, a Gadd45 $\beta$  mouse protein.

Support for the entry of the enclosed sequence listing, which includes the correct mouse protein sequence, may be found at page 66, paragraph [000185], line 3, "...the mouse cDNA and NP-032681.1 for the mouse protein."

No other fees are believed due at this time, however, please charge any deficiencies or credit any overpayments to deposit account number 12-0913 with reference to our attorney docket number (21416/94575).

Respectfully submitted,

Alice O. Martin  
Reg. No. 35,601
